

ROLGEAR®

We **RATCHET**
differently.....

rolgear.com

Silent, Smooth

Roller Bearing Construction allows for friction free operation without clicking.

Zero Backlash

Rolgear Ratchets grip instantly without the backlash of conventional ratcheting tools. Prevents fasteners from turning when rotating backward.

Commands easy as 1. 2 .. 3...

Turn the green indexer for three modes. Forward - Locked - Backward

Ergonomic Comfort Grip

Trilobular Softgrip Handles provide for maximum torque and comfort on hands.

US Patent 8210072, other patents pending

Multi-Bit Screwdrivers

Our Multi Bit Driver with its Super Smooth Roller Bearing Ratchet, High Quality S2 Bits, Stainless Steel Magnetic Bit Holder, High Torque Softgrip Handle. Available as RATCHETING or FIXED SHAFT model and choice of Power Bits or Double Ended Bits.

Ratchet Bit Drivers (4" blade model shown)

Bit Drivers are made for use with 1/4" Hex Insert Bits and are perfect where long reach is needed. Currently they are available in two sizes of handles to accommodate different torque requirements and with the appropriate shaft sizes, 4" by 6 mm or 6" by 8 mm.

Nut Drivers, with Rolgear Roller Bearing Ratchet

Nut Drivers are made to accept protruding studs of up to 1" and are available in various nut sizes. These tools are made to order and can be supplied with or without a magnet to hold nuts in the driver end.

Single Blade RATCHETING Screwdrivers (8" model shown)

We are proud to manufacture the world first full line of Single Blade RATCHETING Screwdrivers. Currently we offer three different handle sizes for different applications and torque requirements. Our Blade sizes are offered in 4", 6" and 8" length and are available in various tip styles and sizes. Although new to the market, serious tool users will quickly appreciate the advantages of these precision drivers.

Bits and Bit Packs

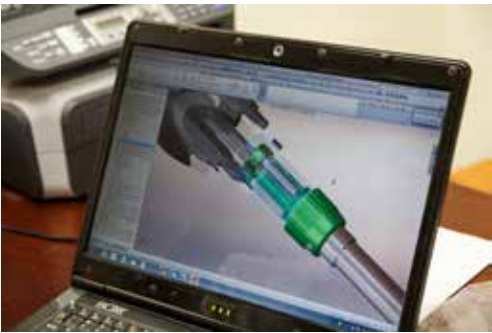

Our Belt Clip Bit Pack is ideally suited for use with our bitdriver and can be conveniently clipped to a belt. It has 12 insert bits of 1" length plus a magnetic bit holder and they are available as sets. Our 3" power bits and double ended bits can be ordered in quantities of 10 pieces or as replacement sets.
