

GROGGLE Systems is pleased to present this innovative, new combination eye and ear personal protection system. The patented design integrates safety eyewear and our premium hearing protection into a convenient, high quality, affordable product. For the personal protective safety market Groogle Systems provides a solution.

- **Conveniently integrated eyewear and hearing protection** prevents misplacement of individual components resulting in greater use of PPE.
- **Eliminates wasted time** searching for PPE increasing production and profits.
- **Helps prevent serious injury, loss worker days, compensation claims.**
- **Attaches to most wire frame earmuffs.**
- **Protection shield keeps eyewear safe from damage and scratching.**
- **Eyewear easily retracts** into and out of the protection shield.
- **Eyewear is secure and protected** when in use or in storage.
- **Eliminating the eyewear frame results in no loss of the rated hearing protection.**
- **No eyewear frame means greater comfort increasing use of PPE.**
